

Advanced Solutions

a DXC Technology Company

Senior Server Administrator – Solaris IS27

Why Choose Us?

Where will a career with Advanced Solutions take you? To the leading edge of information technology, working with industry partners from around the world. At Advanced Solutions you will work with outstanding people in a challenging and dynamic environment. We strive to provide you with the tools, the training, and the opportunity to take charge of your future and take advantage of change to maximize client service and work within a centre of excellence.

The Opportunity:

Advanced Solutions is looking for community-minded, energetic, progressive individual to join its Application Enabling Services department. Advanced Solutions' Application Enabling Services department is responsible for planning, developing, and maintaining the business systems for our various BC public sector clients. Many systems are considered mission critical government applications; used by over 1M users in multiple locations around the province and the general public accessing government information.

Who you are:

- Display a high level of effort, commitment, and mature judgment
- Maintain a professional and confidential manner at all times
- Trustworthy and responsible behavior
- Eagerness to learn and a willingness to accept feedback and direction
- Customer Focus
- Adhere to Advanced Solutions Core Values
 - Exemplify Professionalism: Uphold a respectful and respected workforce.
 - Embrace and Champion Change: Enthusiastically participate, collaborate, innovate, and welcome change.
 - Encourage and Take Initiative: Engaged in progressively promoting personal and professional growth.
 - Personify Integrity: Reputable and productive in which builds the foundation of our success.

Application Requirements

Must Have

- Degree in Computing Science or a related field and 5 years of related experience; or
- Diploma in a related field and 6 years of related experience; or
- Certificate in a related field or program completion, or some course work, and 7 years of related experience; or 10 years of related experience.

Related experience must include:

- 3+ years of experience working in a large enterprise environment (> 5,000 users / > 200 servers).
- Demonstrated experience in participating/managing complex IT issues.
- Demonstrated experience in project management, including leading and managing multiple projects simultaneously.

- Experience in identifying and developing improvements to services and managing them through to implementation.
- Experience using automation tools such as Ansible.
- Experience using an ITIL compliant ticketing system.
- Technical support experience with Solaris 11 (optionally Solaris 10)
- Specialized (3+ years) in supporting/architecting/maintaining the following:
 - Common Opensource software packages and distributions.
 - Enterprise level server monitoring and reporting.
 - Scripting/programming skills, particularly in Perl, Python, Bash
 - Solaris virtualization including Zones and Oracle VM.
 - Experience in configuring IPV4 networking.
 - Other related server technologies.

Knowledge, Skills & Abilities

- Oracle Solaris (certifications would be an asset).
- ITIL framework V2 or V3 (certification preferred).
- IT security best practices and methodologies.
- Technical standards in an enterprise environment.
- Client-focused and flexible with a responsive approach and an ability to manage multiple projects within tight, often conflicting deadlines.
- Ability to work in a high-pressure environment while demonstrating excellent judgment and applying sound problem solving and analytical skills.
- Excellent written and oral communication.
- Ability to establish and maintain constructive working relationships at all levels.
- Ability to assimilate and apply latest information in a fast-changing environment.
- High degree of initiative and self-motivation.
- Ability to monitor performance and accept accountability.
- Ability to communicate technical information to a non-technical audience.
- Strong planning, organization, and coordination skills.
- Ability to build strong partnerships with stakeholders, while applying the concepts of teamwork and cooperation.
- Ability to work both independently and as a team member with a strong focus on results.
- Ability to lead, manage, and deliver innovative and cost-effective solutions to business requirements

Diversity, Inclusion & Workplace Information

We promote a diverse, equitable work environment and welcome employment applications from individuals of all backgrounds. Our employees enjoy competitive and comprehensive extended and group benefits and participate in a very progressive defined benefit plan through the BC Public Service Pension Plan.

We care about our people and are leaning into a workplace culture that supports a healthy work-life balance. Advanced Solutions is proud to be pivoting to become a remote and/or hybrid workplace. Employee's will have the option to work from anywhere within Canada, or from our Vancouver Island Technology Park Office in beautiful Victoria, BC, or a combination that suits their needs. To learn more about the Victoria Office, please visit the [VITP Information Site](#).

How to Apply:

Please ensure your application clearly identifies how you meet each of the stated qualifications, with particular emphasis on the education, training, and experience requirements. This information will be utilized in screening your application and determining whether you will be considered for the next stage of the recruitment process.

In your application/cover letter please indicate how you heard about ESIT Advanced Solutions (i.e., name of job boards, career fairs, word of mouth). Qualified candidates are invited to forward their cover letter and resume, noting the position title and where they saw the position advertised, to Competition@dxcas.com by Monday, February 13, 2023.

An eligibility list may be created. Lesser qualified applicants may be under-implemented or appointed at a lower level.
